

## Wildwood Days fairy parties

Fairies is a popular theme so we have a range of activities to suit different age groups and venues. We're always willing to try something a bit different so just ask if you want an activity that's not listed. You can choose 1 starred activity and 2 other activities:

**\*Make a peg fairy (£2 per child extra)** – a lovely craft activity and a nice thing to take home at the end of the party. Give your peg fairy a face (with sharpie markers), woollen hair, petal wings and a dress – each one is unique. Or you could make a stick fairy if you want a more natural look (see photo below).

**\*Make a fairy garden (£3.50 per child extra)** – we provide all the materials so that each child can make a miniature world to take home. Children can choose 2 small flowering plants to put in their pot and then add a mini wooden fairy house, coloured gravel, shells, rocks and a mini mushroom to make it truly magical.

**Peg fairy hunt** – a selection of peg fairies are hidden around the site – the children have to find as many as possible. For older children this can be made more complex with clues to help you guess each fairy's name.

**Natural crowns and/or bracelets** – each child receives a crown covered in double sided sticky tape, which they can then decorate with petals, leaves, moss, etc. Alternatively, each child has a cardboard bracelet to decorate in the same way.

**Fairy lanterns** – decorate a glass jar with some fairy silhouette stickers and some coloured tissue paper. These come with twine handles and real tea lights or (for a small additional charge) battery tea lights.

**Woodland potions** – everyone is given a little pot and a mixing stick and asked to collect some woodland ingredients to make a potion. We provide extra flower petals and berries, as well as coloured water and some fairy dust (glitter) to make it look magical. If requested we can provide containers (glass jars or plastic bottles) so that the potions can be taken home.

**Grass heart wands** – Everyone chooses a stick and then gets to add natural decorations (grasses, flowers, etc.) and/or ribbon to create their own magical wand. We can help with knot tying if needed. Another nice crafty activity to inspire imaginative play.
